Considerations for Working Men.

The votes of Mesers DUNLAP, HAMLEN and HER-RICE, Representatives in Congress from this State, of the self-called Democratic party, show that they are open and voting enemies of the doctrine of protection. They go together in favor of a mere revenue Tariff, and against the protective features of the present law. It is well to keep these matters before the public, that the subject may be fairly discussed& fully understood, and that the people may act understandingly on this subject, when called next fall to vote for members of the next Congress. We wish to deal fairly and openly in this matter, and have no disposition to magnify this subject beyond its intrinsic importance. But fully believing that it is matter of vital importance, nay, that to all the great industrial interests of our country it is a question of life or death, we feel bound in the performance of our duty, to speak fully and often on this most important, if not interesting subject. We do not aim at originality or eloqueuce, but we intend to present plain truths and arguments, in a plain and familiar manner, and as much as in us lies to endeavor to persuade the working men of our land to break away from party fetters, and party dictation, and to understand their true interests and independently maintain them, by voting for men who will sustain the American system.

One of the most frequent, if not the most plausible, arguments against protection is that it favors only the manufacturer, the rich capitalist, the great tactories, at the expense of the farmer and handicraftsmen. Our new Governor in his Message throws out this idea, as an objection () the present Tariff. This objection we meet with a flat denial. In the first place, the Tariff directly and specifically protects the productions of the farmer and mechanic, and this in important particulars. To instance a few particulars, interesting to us in Maine. Cheese Beents per pound-Lard 3 cents per pound-Beef and Pork, 2 cents per pound-Bacon, 3 cents per pound-Butter, 5 cents per pound-Wheat, 25 cts per bushel-Oats and Potatoes, 10 cents per bushel-Wool, 3 cents per pound, and 30 per cent on its value. Cord wood 20 per cent, lumber 30 per cent. These duties are direct protection to the farmer and the lumberman. Look next to some of the Mechanical trades, in ref-

erence to direct protection. Tampers, shoemakers, pair-men's gloves, and persone Manufactures

How can might not be wholly uninteresting to you. he have that market, if the policy of the country is such as to drive all men to become agriculturalists? What has given to our tarmers in Penobscot a tolerable market for their produce! The fact certainly that so large a proportion of our population has been engaged in other pursuits, particularly lumbering.

This branch of the manufacturing interest has required to carry it on, hay, oats, pork, potatoes, grain, &c. &c., and the farmer has found a market at his own door. How would it have been, had we didate for Governor, and candidates for Electors all been farmers? Any man of common sense can answer. Our country is a world in itself, with almost every variety of productions, climate, soil.-It has people enough to make a home market for the farmer, or one hand, and the manufacturer on the other. What we want is such a policy on the part of Government as shall induce a proper proportion of our population to engage in different pursuits. The farmer finds a market for his articles wherever he can find the lumberman, the mechanic, the manufacturer, and the merchant to consume them. Imagine manufacturing establishments on all the water power of our river, from Oldtown to Bangor-employing six to ten thousand workmenwhat a demand would at once arise for all the productions of the farmer, and what an amount of money that now goes abroad for manufactures would be retained at home! Let every farmer think of these things, and not be led astray by sophistical theories, or appeals to his prejudices and the demagogue cry of rich capitalists and overgrown establishments. Depend upon it, the only true policy for the farmer, of all men, is the policy of protection. and if they will think for themselves, and castaway party prejudices, they must and will sustain the Whig doctrine.

The Late Dr Mores, of Newburyport.

The Witness and Advocate states that a very neat marble monument has been placed over the remains of Dr Morss, at the expense of the par-

ish. This excellent man we venerated in childhood and youth above all others. He was not only our religious teacher, but a counsellor and friend and benefactor, and who in our later years we have delighted to respect and love. The following inscription upon the monumentalluded to is from the pen of a gentleman who is among the oldest members of the parish, dar was a friend and acquaintance of Dr Morss for many years:

State Military Convention. To the Editor of the Whig & Courier:

As you are a retired officer of Artillery, firm friend of the militia, and the militia. I have thought a few incidents, hasting the ed however, which transpired at the lain Willtary State Convention holden at Augusta en the 10th Most of the productions of the farm are bulky, and 11th insts., and which cannot of course, ap-

It was truly unfortunate, that the atorm was so exceedingly severe, as to block up the roads so as to prevent a greater number of officers from attending, that otherwise would have been present. But this circumstance served to prove the officer, and show whether he is worthy of the commission he holds. As the toils and hardships of the Revolution tried mens' souls, so the sever' ity of the weather, seemed to try the officers of the militia of the State. And while a majority of the Convention travelled more than fifty miles, and some more than one hundred miles, few, very few were present from the immediate neighborhood of the Convention, and none, from the fifth

person of Maj. Gen. Batchelder. He has a very happy presiding talent, prompt, correct and impartial in his decisions, wining by his peculiar urbanity, and courtesy, the respect of all.

It was a happy thought to go immediately into committee of the whole, not on the State of the Union, but on-the State of the militia. Coming as did the members, from all parts of the State, it gave an opportunity for a free and general interchange of sentiment.

The committee was addressed by Maj. Gen-Stevens of Bangor, in some very happy remarks expressive of his views in relation to this great and vital subject of the militia system, also by Brig. Gen. Ulmer, of Thomaston, Brig. Gen. Jones, of Ellsworth, Col. Tripp, of Farmington, Cols. Mills, Frost and Kimball, of Bangor, Maj. Ludden of Turner, and many others, whose as they are with almost every page of our histonames I did not learn,-when Col. Mills was ry for thirty years,) are called up to the minds called to the chair, and Maj. Gen. [Hartford Courant.

The report of the large and highly respectable committee on resolutions, made by their chairman, Col. Mills, to the Convention in the afternoon, in the House of Representatives, was passed upon by the Committee, with great unanimity. But as it could not be acted upon by the Convention until the second day,-and as members of the Convention, friendly to the militia, were obliged to leave, and some new ones, who lived in the immediate vicinity com-

ing in, the secone was a day of much interest. Seldom do deliberate assemblies display a greater amount of talent, or more ready debaters, than that day's proceedings brought out. In the midst of which, the Hon. Mr Bronson, of Augusta, made a speech full of sound good sense showing conclusively the great worth of the system, and why the present law was inefficient, every word of which met with a hearty response n the hearts of all true friends of the militia present. Maj. Knight, of Peru, now of the House, made some exceedingly happy remarks upon the subjects under discussion. Maj. Ludden, of Turner, Mr Homan, of Augusta, and several other young gentlemen whose names I did not learn, all of the extreme left, exhibited much talent and a readiness in debate, that their age would hardly have warranted.

Col. Tripp, of Farmington, a lawyer by profession, and a young efficer of much promise, proved himself a ready and able debater, and a true friend to the militia.

Col. Mills, of Bangor, occupied his share of the time, and, at least, shew that he felt a deep interest in the cause.

There were a great many other officers and gentlemen who took part in the debate, whose names I did not learn.

There was a project of law introduced, which finally passeed with great unanimity, intended expressly for the nullifying districts of the intrinsic merits of which, I am more and more convinced. It is peculiarly adapted to enforce the laws, where rebellion now prevails, and if the Legislature will engraft it into the militia law, it will have a most salutary effect.

The most beautiful feature of its provisions is, to use an old and homely adage, "those who dance must pay the fiddler," will be all sufficient without its ever being called into action.

To conclude, the Convention were exceedingy happy to meet with such extreme courtesy and good feeling from the members of the Legislature generally, and I have positive hopes, that the militia system will now be placed on the true and honorable basis, and that there it will be suffered to rest, "through all coming A MEMBER OF THE RIGHT.

Feeding Sheep.

I consider the mode of feeding sheep of much consequence to the farmers of this cold country, where we have to feed on hay six months in one

Six inches above the plank and four inches nearer the rack, fix a board to prevent the sheep from getting into the waste box. My object in setting the board four inches nearer the rack is of great importance, as the brisket comes to bear instead of the neck and shoulder and prevents starting the wool. His capacities both of head and of heart, as far remove him from the mousing party gamester, who will probably be set against him, as "thrice from the centre to the utmost pole." He has the qualities which the people most admire in a public man, -an ardent, open-hearted candor which takes mankind by the hand, without conveying all the while, the impression that there is a sly and foxy reserve hidden behind the masked face. CORNAROS the top fifteen inches, and board it up to receive Purifying and Preserving PILLS.

THE American public has for a long time the victim of a false and dangerous system medicine founded on the practice of LONG COL TINUED AND UNRELIEVED PURGATIO The evils of this old system are of the most wh spread and alarming character. They have read ed through every vein and artery of our nation In every city, and village, and hamiet in ev State and Terrstory of our wast Republic, will found those who have suffered, or who are still fering from the injurious effects of this old syste of whose practical utility the disease, dec of where prostration of those who test it furnish most condemning proofs!

COMMON DRASTIC PURGATION Scours out the system by the most improper violent means, and then leave it, weak, low, fe debilitated, to regain its strength as best it may Sometimes the consequences of this old Purga the sheep come quartering and jamb the small practice are worse than mere Debility. luft tion of the Bowels, Slow Fever, Bloody Piles, other horrible disorders are produced, simply the want of some enlivening and preserving por in the medicine employed. Sometimes the tive organs are deeply and permanently injure Every Whig must rejoice at the triumphant this coarse and unphilosophical practice, learing patient AN INVALID FOR LIFE.

The alarming earls and absurdities of the old s of Purgation, have led to the introduction of Life-giving Medicine, called CORNARO'S PC FYING AND PRESERVING PILLS, which established on this new and only true principle NO PURGATION WITHOUT IMMEDIA"

RESTORATION. The use of this admirable Purgative reme strikes a death blow to that abominable synt which by continually evacuating the bowels w

out any conservative or saving power, so dread and fearfully prostrates and injures the unhappy tient. These Purifying and Preserving Pilibeliewed to Sconstitute the perfection of medicibenness a UNIVERSAL VEGETABLE PURG TIVE, containing two great remedies combinately in the perfection of the property TION, and another to PRESERVE FROMIN RY AND DECAY.

And for the purpose of attaining the highest gree of purity in the preparation of these Pulls, Bradlee has, at a vast expenditure of time money, invented and patented at Washington chemical and philosophical apparates for desp and refining vegetable extracts, called THE SEVEN-FOLD FURNACE.

A powerful and novel machine-having Seven and Seven Alembics, with distilling, condenand evaporating fixtures of a new and ingen contrivance, capable of obtaining more than se times the ordinary purity of any vegetable extr heretofore used in compounding medicine. Baliamic and Preserving power of these Pil also, by this invention, highly purified and refi and so mingled with the operative medicine the repairs all the injuries created by Purgation as as they are caused, and strongly fortifies the tem against future corruption and decay. Let the public be no longer deceived by the

rertisements of the "one remedy" doctors, who their entire ignorance of the organic laws of the man system by supposing that a medicine w purges merely, without renovating or preserving, be a perfect remedy. For it is a fixed and incr ble law of our being that there should be in noc Purgation without immediate Restoration and h it follows, and is proved to demonstration, that Purgatives which DO NOT possess a saving preserving power, are injurious, and injurious and possess NOT ONE REDEEMING QUAL

DARRAINE'S PHOLIS OR VEGETABLE UNIVERSAL MEDICINE CURATIVE

French College of Health, in Paris. THE tollowing letter was received vesterday by mail from Salem. It lives another evidence of the great success of Lorraine's Vegetable Univer

Sin-I have been for many years a sufferer from the ravages of Scrofula and Cancerous Humors. which at last seated on the vitals, and exhibited all the threatening symptoms of consumption. The general inutility of all remedies awakened my enquiries as to the thousand different methods of cure. ost of which I had recourse without receiving benefit. I accidentally noticed a remarkable cure by Lorraine's Pills, and was induced to give them a trial. I sent to Boston and got a box. By the use of them I found immediate relief and was soon te stored to a perfect state of health. J. E. NEWHALL.

Salem, 21st May, 1011.

The following letter from J. B Light, Esq. is wor # thy of notice.

Sin-It ook one of Lorraine's Veretable Pillslast evening for a pain in my head, that had effected ine for several days, occasioned by taking cold. I soon felt very calm, and quiet, and a state of general repose came on which had great charms, and I enjoy ed one of the most comfortable and retreshing nights rest that I ever did in my life. I rose in the morning in my usual state of health, and believe it is my duty to recommend this medicine. J. B. LIGHT.

Yours truly. Nov. 20th, 1841.

[From Boston Daily Mail.] Somebody wisely says, that a cap loaded with ewels and flowers will not cure the headache, nor geld chains prevent the consumption. Lorraine's Vegetable Pills have done both.

SIR-I have been effectually cured of a severe headache by the use of Lorrame's Pills. SARAH NOYES.

SIR-My daughter had all the threatening symp toms of a Consumption, such as cough, pain in the side, &c , together with general debility, but has had her health restored by Lorraine's Pills. Rev. J. KNIGHT.

New Work City, Nov. 1, 1341.

Family Medicine.
Since I have used Lorraine's Pills in my family as Family Medicine · family medicine, and I would most earnestly rec ommend them to all persons, as the best medicine that can be procured. I would not be without them -they operate mildly, and never fail to give immediate relief Until I used these Pills I was obliged to pay from 2rom 25 to \$100 per year for medicines and physicians, since then I have had no other doctor than Dr. Lorrame's Pills. DR. TAYLOR'S BALSAM OF LIVER WORT. PRICE REDUCED

DR. TAYLOR'S Balsam of Liverwort, from 375 Bowery, New York-for the cure of Coughs, Colds, Catarrhs, Asthma, Soreness of the Chest, Pain in the side and Breast, raising of Blood, Liver complaint, Bronchitis, and all those affections of Throat and Lungs which are a source of so much suffering and unarrested, so often terminate in Consumption—this remedy is highly and justly distinguished. It is purely vegetable, mild and gentle in its effects upon the system, and can be taken in the most delicate cases, with safety as well as utility. Physicians, aware of its medicinal properties, and witnessing its effects even in extreme and in some instances apparently almost hope less cases, often prescribe it in their practice, both as a palliative and a remedy, and with the Medical Faculty generally it has met with great approba-

CONSUMPTION.—The following remarks were taken from the last number of the Medical Magazine: The surprising effect produced by the genuine Dr. Taylor's Balsam of Liverwort, made at 375 Bowery, in consumptive cases, connot fail exciting a deep and thrilling interest throughout the world.

We have so long considered this disease (consumption) incurable, that it is difficult to credit our senses when we see persons, evidently consumptive, restored to health. Yet it is a fact of daily occurrence."

Certificates from the highest and most respectable sources, or persons who have been either greatly relieved by it, or entirely recovered from affections of the Lungs and Liver, could be furnished in abundance, but we insert only the following CERTIFICATE.

Liver Complaint and General Dibility. I was given up by two physicians, and told to prepare for death. I was so weak I could not raise my hand to my head. I was in this low state, when a friend sent me a bottle of Dr. Taylor's Balsam of Liverwort, from 375 Bowery, and before I had used up the bottle, I was able to sit up in bed. By the further use I have completely regained my health. GEO, WELLS, 23 John-st.

PATENT MILL WHEELS.

THE Subscriber having for a long time given bis attention to the construction and operation of Water Wheels, has finally succeeded in the invention of two kinds of Wheels for which he has received Letters Patent from the Government of

the United States. These Wheels are simple in their construction cheap and durable, are easily put in operation, and are not liable like most other wheels to get out of order, they are not obstructed by back water, when the head is not diminished thereby; and the same power and speed is obtained, with about one half the quantity of water usually applied to wheels now in general ase.

A great number of these Wheels are now in operation and give in all cases entire satisfaction; and for further information respecting them the following gentlemen are referred to, all of whom have some of said wheels in operation: Jacob Drum mond, James B. Fiske, Amos Davis and Leonard Peirce & Co. Bangor; Hon J S. Little, Portland; Hon. John Otis, Hallowell; F. A. Butman, Esquire, Dixmont; Robert Treat Geo. A. JAYNE'S EXPECTORANT. 1 118 invaluable medicine is daily effecting some of the most assonishing and wonderful cures that have ever been known. All who have used it for Asthma, Cough, Spitting of Blood, Whooping Cough, Group or Bive., Consumption, Chronic Picurisy, Boarseness, Pain and Sureness of the Breas, Difficulty of Breathing, and svery other disease of the LUNGS and BREAST, can and do attest to its usefulness. BRONCHITIS, a disease which is annually sweeping thousands upon thousands in a premature grave, under the mistaken name of CONSUMPTION, is always cared by it. The usual symptoms of this disease, Bronchites, are Cough, Sore-

ness of the Lungs or Thront, Honraeness, Difficulty of Breathing, Asthma, Hectic Fever, a Spitting up of Philegm or Matter, and sometimes Blood. It is an in-Scrotula, flammation of the fine skin which lines the inside of the whole of the wind tubes or air vessels, which run thron every part of the Lungs.
